IMPORTANT

Legal and Source Boundaries

1

Education

This course builds compliance capability; it is not legal or tax advice.

2

Verify currency

Deadlines, rates, forms and guidance can change; check the regulator before acting.

3

Singapore first

Official ACRA, IRAS, MOM and PDPC sources control Singapore propositions.

4

Comparative sources

Overseas articles contribute frameworks only; foreign rules are not imported as Singapore law.

FOUNDATION

Corporate compliance is a management system

1

Law

Mandatory statutes, regulations and enforceable duties

2

Governance

Who may decide, approve, oversee and challenge

3

Operations

Policies, controls and evidence embedded in work

4

Assurance

Monitoring, testing, reporting and remediation

Sources: Wolters Kluwer: Compliance | Wolters Kluwer: Governance

© 2026 Tertiary Infotech Academy Pte Ltd

FOUNDATION

Legal compliance and regulatory compliance

Legal compliance

1. Broad duties that apply across business activities
2. Company, employment, tax, contract and privacy law
3. Courts and regulators may enforce consequences

Regulatory compliance

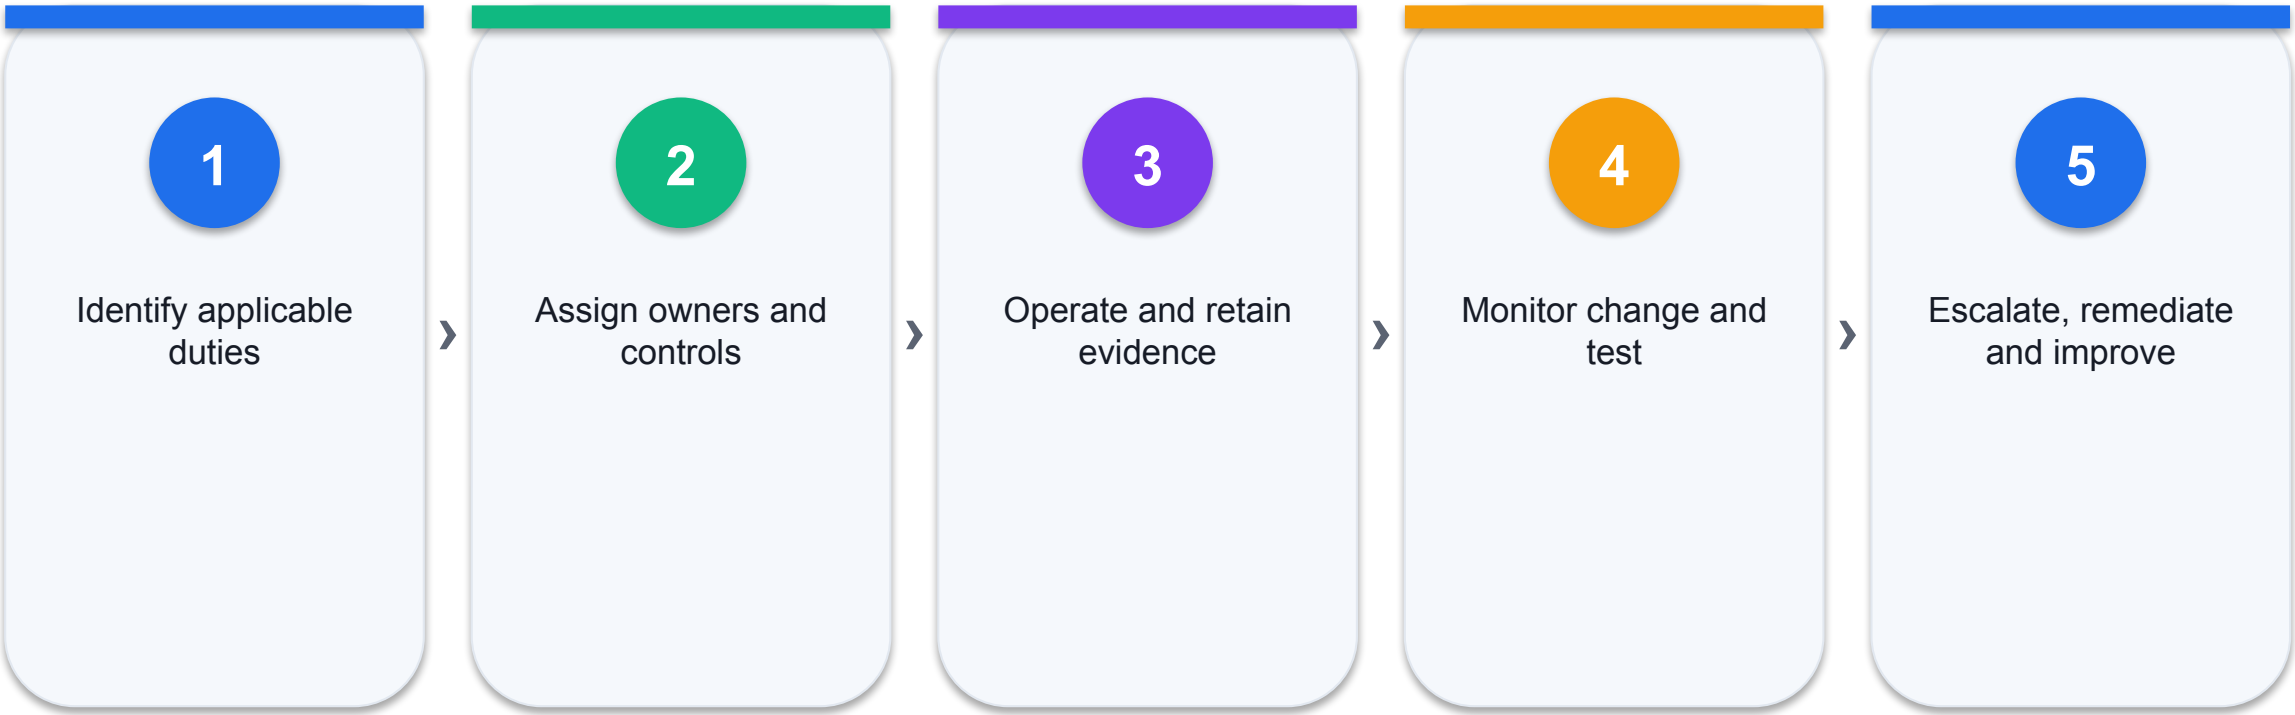

1. Rules linked to a regulator, licence, sector or activity
2. Finance, healthcare, food, technology and safety overlays
3. Often includes reporting, inspection and licence conditions

OPERATING MODEL

The continuous compliance cycle

Sources: LeapXpert: Compliance guide | Bizbot: Company compliance | Wolters Kluwer: Compliance

© 2026 Tertiary Infotech Academy Pte Ltd

GOVERNANCE

Three accountability layers

1

Board / directors

Set direction, challenge assumptions and remain accountable

2

Management / owners

Translate obligations into resources, decisions and controls

3

Business functions

Perform controls, keep evidence and raise issues early

4

Independent assurance

Review design and effectiveness without owning the control

Sources: ACRA: Directors' duties | Wolters Kluwer: Governance

© 2026 Tertiary Infotech Academy Pte Ltd

DIRECTOR MINDSET

Outsourcing a task does not outsource accountability.

Directors must understand, challenge and authorise - even when advisers prepare the work.

Sources: ACRA: Financial reporting duties

© 2026 Tertiary Infotech Academy Pte Ltd

EVIDENCE

A useful compliance evidence chain

1 **Requirement**

The law, filing, licence or regulator expectation

2 **Control**

The preventive or detective action that addresses it

3 **Owner**

A named role with authority, capacity and deadline

4 **Evidence**

Dated proof that the control operated and exceptions were resolved

TOPIC 1 | K1, A1 / LO1

Singapore's Legal and Regulatory Framework in a Global Context

Corporate duties, governance, registers, financial reporting and cross-border legal triggers

Source: Course proposal and approved TSC mapping

© 2026 Tertiary Infotech Academy Pte Ltd

REGULATOR MAP

Singapore's business-law ecosystem

1

ACRA

Entity records, directors, annual returns and financial reporting

2

IRAS

Corporate tax, GST, employer reporting and record keeping

3

MOM / CPFB

Employment standards, CPF and workplace safety

4

PDPC + sector regulators

Personal data plus finance, health, food and technology overlays

LEGAL HIERARCHY

How legal requirements reach the business

1. Acts passed by Parliament
2. Subsidiary legislation and regulations
3. Regulator guidance and filing systems
4. Court decisions and contractual duties
5. Company policies and controls

Sources: ACRA: Directors' duties | Wolters Kluwer: Governance

© 2026 Tertiary Infotech Academy Pte Ltd

Five non-delegable director touchpoints

1 **Records**

Keep proper accounting records and preserve them

2 **Financial statements**

Ensure compliance and a true and fair view

3 **Meetings**

Hold an AGM unless exempt or validly dispensed with

4 **Returns**

File annual returns, including for dormant companies

5 **Registers**

Keep officers, shareholders and controllers current

Sources: ACRA: Directors' duties | ACRA: Financial reporting duties

© 2026 Tertiary Infotech Academy Pte Ltd

GOVERNANCE

Director oversight: weak versus defensible

Weak oversight

1. Signs without reading or questioning
2. Treats the company secretary or accountant as the legal owner
3. Accepts late or incomplete evidence
4. Cannot explain the basis of the decision

Defensible oversight

1. Understands key figures and legal deadlines
2. Challenges estimates and unusual transactions
3. Uses competent advisers but forms an independent view
4. Records questions, advice, decisions and follow-up

Sources: ACRA: Financial reporting duties

© 2026 Tertiary Infotech Academy Pte Ltd

ACRA RHYTHM

Annual corporate housekeeping

1. Confirm company particulars
2. Reconcile member and officer changes
3. Verify controllers and nominees
4. Review financial reporting status
5. Approve and file the annual return

Sources: ACRA: Company registers | ACRA: Directors' duties

© 2026 Tertiary Infotech Academy Pte Ltd

Registers and key deadlines

1

Electronic registers

Report officer/shareholder changes through Bizfile within 14 days

2

Private RORC

Maintain controller information; update within 7 days after confirmation

3

Central RORC

For applicable companies, lodge updates within 2 business days after the private register

4

Annual verification

Send controllers a notice at least once a year to verify particulars

Sources: ACRA: Company registers

© 2026 Tertiary Infotech Academy Pte Ltd

CURRENT DEVELOPMENT

The 16 June 2025 register change

1

At incorporation

Companies incorporated from this date establish RORC/ROND/RONS from registration

2

Private first

Update the company's own register before the central filing

3

Central filing

Submit relevant changes to ACRA within the prescribed short window

4

Control implication

Incorporation and change-management checklists must be redesigned

Sources: ACRA: Company registers

Financial reporting: what directors must do

1 **Read**

Understand the statements before authorising issuance

2 **Challenge**

Question treatments that conflict with transaction substance

3 **Learn**

Maintain enough current financial knowledge for high-level review

4 **Resource**

Appoint competent people, robust controls and external help when needed

Sources: ACRA: Financial reporting duties

© 2026 Tertiary Infotech Academy Pte Ltd

FILING DISCIPLINE

Annual return and tax return are different

ACRA annual return

1. Maintains the public corporate record
2. Covers officers, shareholders and company particulars
3. May include XBRL financial statements where applicable

IRAS corporate income tax return

1. Declares taxable income and supporting tax positions
2. Includes ECI and Form C-S/C-S (Lite)/C obligations
3. Uses the Year of Assessment framework

Sources: ACRA: Directors' duties | IRAS: Corporate income tax

© 2026 Tertiary Infotech Academy Pte Ltd

CROSS-BORDER TRIGGERS

Global developments become local business issues when...

1 **Customers**

The business serves or targets persons in another jurisdiction

2 **Data**

Personal or operational data is transferred or accessed overseas

3 **Supply chain**

Contracts import foreign standards, sanctions or reporting duties

4 **Capital and people**

Investors, staff, directors or assets cross borders

ACTIVITY 1 | K1, A1 / LO1

Board Duties and Governance Gap Scan

25 MINUTES

Identify director, record, reporting and register gaps; distinguish tasks that may be outsourced from accountability that remains with directors.

Scenario

Apply the course concepts to a realistic Singapore business situation.

Deliverable

One-page governance gap scan and two-minute board briefing.

Evidence

Use regulator guidance, state assumptions and show owners, deadlines and proof.

Sources: ACRA: Directors' duties | ACRA: Financial reporting duties | ACRA: Company registers

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 1

Case Scenario | Board Duties and Governance Gap Scan

THE SITUATION

Red Lantern Pte Ltd has a nominee director who signs documents without reading them, an outsourced accountant who is three months behind, and a share transfer that was never updated in Bizfile. The board assumes the service providers carry the legal responsibility.

YOUR ROLE

Act as the business owner or compliance lead. Separate facts from assumptions, identify the legal trigger, then make a defensible recommendation.

Sources: ACRA: Directors' duties | ACRA: Financial reporting duties | ACRA: Company registers

© 2026 Tertiary Infotech Academy Pte Ltd

QUESTIONS + SUCCESS CHECK | NO CLICK-BY-CLICK STEPS

Debrief | Activity 1: Board Duties and Governance Gap Scan

DISCUSS AND DECIDE

1. Which facts indicate a legal or governance failure?
2. Which director duties are engaged and what evidence is missing?
3. What immediate containment actions are required?
4. What recurring controls would prevent the same gap?

SUCCESS LOOKS LIKE

- ✓ All material facts mapped
- ✓ Director accountability stated correctly
- ✓ Owners/deadlines named
- ✓ Evidence requirements explicit

Sources: ACRA: Directors' duties | ACRA: Financial reporting duties | ACRA: Company registers

ACTIVITY 2 | K1, A1 / LO1

Global Trigger and Regulatory Perimeter Map

20 MINUTES

Show how customers, data flows, contracts, staff and suppliers can make global legal developments relevant to a Singapore business.

Scenario

Apply the course concepts to a realistic Singapore business situation.

Deliverable

Regulatory perimeter map with owners and escalation rules.

Evidence

Use regulator guidance, state assumptions and show owners, deadlines and proof.

Sources: PDPC: Breach notification | Wolters Kluwer: Compliance | Pitt Law: Compliance legislation | ES Law: Corporate-law basics

© 2026 Tertiary Infotech Academy Pte Ltd

ACTIVITY 2

Case Scenario | Global Trigger and Regulatory Perimeter Map

THE SITUATION

NexPort Solutions sells a Singapore-hosted SaaS platform to customers in Singapore, Malaysia and the EU. It uses overseas cloud support, employs remote staff and accepts enterprise contract clauses based on foreign privacy and security standards.

YOUR ROLE

Act as the business owner or compliance lead. Separate facts from assumptions, identify the legal trigger, then make a defensible recommendation.

Sources: PDPC: Breach notification | Wolters Kluwer: Compliance | Pitt Law: Compliance legislation | ES Law: Corporate-law basics

© 2026 Tertiary Infotech Academy Pte Ltd

QUESTIONS + SUCCESS CHECK | NO CLICK-BY-CLICK STEPS

Debrief | Activity 2: Global Trigger and Regulatory Perimeter Map

DISCUSS AND DECIDE

1. Which cross-border touchpoints create a monitoring obligation?
2. Which issues are Singapore baseline duties and which require foreign advice?
3. Who should own horizon scanning for each trigger?
4. What decision would require escalation to the board?

SUCCESS LOOKS LIKE

- ✓ Five trigger categories covered
- ✓ Singapore/foreign distinction clear
- ✓ No foreign rule treated as Singapore law
- ✓ Escalation rule is decision-ready

4

Records and changes

Keep support, notify IRAS and account at deregistration

Sources: IRAS: GST responsibilities

© 2026 Tertiary Infotech Academy Pte Ltd

Manual filing and seamless filing

Manual hand-offs

1. Repeated re-keying between source systems and portals
2. Higher transposition and version-control risk
3. Evidence spread across email and local files

#SFFS-enabled workflow

1. Accounting/payroll data flows to tax forms with review
2. Corppass authorisation and acknowledgement remain visible
3. Digital records can support adjacent ACRA/CPF/MOM duties

Sources: IRAS: Seamless filing

EMPLOYER DUTY

Who requires CPF contributions?

1

Singapore citizens / PRs

Employees working in Singapore under a contract of service

2

Directors

Company directors receiving wages may be covered

3

Flexible workers

Part-time and casual employees are included

4

Connected persons

Paid family members and concurrently employed staff may also qualify

Sources: MOM: CPF contributions

© 2026 Tertiary Infotech Academy Pte Ltd

Monthly CPF control

1. Validate employee status and wages
2. Calculate employer and employee shares
3. Approve payroll
4. Pay contributions by the required date
5. Reconcile acknowledgement and exceptions

PDPA obligations as an operating system

1 **Accountability**

Appoint a DPO and make policies/practices available

2 **Purpose and consent**

Notify purposes and manage valid consent/withdrawal

3 **Protection and retention**

Secure data and stop retaining it when no longer needed

4 **Transfer and rights**

Manage overseas protection, access and correction

Sources: PDPC: Breach notification

© 2026 Tertiary Infotech Academy Pte Ltd

Notifiable data breach timeline

1. Contain and investigate
2. Assess significant harm and significant scale
3. Determine whether notifiable
4. Notify PDPC as soon as practicable and within 3 calendar days
5. Notify affected individuals and document response

Sources: PDPC: Breach notification

ACTIVITY 3 | K1, A1 / LO1

Five-Agency Compliance Calendar

25 MINUTES

Convert company facts into a calendar of ACRA, IRAS, MOM/CPF, WSH and PDPA responsibilities with evidence owners.

Scenario

Apply the course concepts to a realistic Singapore business situation.

Deliverable

12-month compliance calendar and evidence register.

Evidence

Use regulator guidance, state assumptions and show owners, deadlines and proof.

QUESTIONS + SUCCESS CHECK | NO CLICK-BY-CLICK STEPS

Debrief | Activity 3: Five-Agency Compliance Calendar

DISCUSS AND DECIDE

1. Which obligations are event-driven, monthly, annual or incident-driven?
2. What source evidence proves each duty was met?
3. Where do two regulators depend on the same underlying record?
4. Which dates must be verified annually rather than hard-coded forever?

SUCCESS LOOKS LIKE

- ✓ Five regulator categories present
- ✓ Trigger/frequency accurate
- ✓ Owner and reviewer separated
- ✓ Evidence and escalation captured

QUESTIONS + SUCCESS CHECK | NO CLICK-BY-CLICK STEPS

Debrief | Activity 4: Data Breach Notification Tabletop

DISCUSS AND DECIDE

1. What must be done in the first hour?
2. What facts determine significant harm or significant scale?
3. When does the three-calendar-day notification clock matter?
4. What records support the decision whether or not to notify?

SUCCESS LOOKS LIKE

- ✓ Containment precedes notification drafting
- ✓ Clock described accurately
- ✓ Known/unknown facts separated
- ✓ Decision and evidence documented

Business Decision-Making in Response to Regulatory Changes

From regulatory signal to proportionate, documented and evidence-backed action

Source: Course proposal and approved TSC mapping

© 2026 Tertiary Infotech Academy Pte Ltd

DECISION FRAMEWORK

The SCAN decision model

1. Spot the legal change
2. Clarify applicability
3. Assess business impact
4. Navigate a decision
5. Verify implementation

Sources: LeapXpert: Compliance guide | Bizbot: Company compliance | Financial Poise: Corporate compliance

© 2026 Tertiary Infotech Academy Pte Ltd

K2

Start with business facts, not a generic checklist

1

Business model

Revenue streams, promises, channels and critical assets

2

Operating footprint

Locations, customers, vendors, people and systems

3

Risk appetite

What can be accepted, reduced, transferred or avoided

4

Decision rights

Who recommends, approves, implements and challenges

Sources: Wolters Kluwer: Governance | ES Law: Corporate-law basics

Six impact lenses

1. **People**

   Roles, capability, workload and accountability

2. **Process**

   Workflow, approvals, exceptions and deadlines

3. **Technology and data**

   Systems, access, interfaces, records and security

4. **Contracts**

   Customer, supplier, employment and data clauses

5. **Finance**

   Cost, revenue, tax, provisions and insurance

6. **Reputation**

   Trust, regulator confidence and market access

Sources: LeapXpert: Compliance guide | Bizbot: Company compliance

RISK

Score compliance risk consistently

1

Likelihood

How probable is failure given exposure and control maturity?

2

Impact

Legal, financial, operational, safety and trust consequences

3

Velocity

How quickly could harm occur or a deadline expire?

4

Detectability

Would the organisation discover failure before the regulator/customer?

© 2026 Tertiary Infotech Academy Pte Ltd

Control design hierarchy

1. Avoid or redesign the risky activity
2. Prevent failure through workflow and authority
3. Detect exceptions quickly
4. Correct and recover
5. Evidence operation and review effectiveness

TRADE-OFFS

Compliance options are business options

Poor framing

1. Comply or do nothing
2. Legal says no
3. Controls added after launch
4. Success measured by absence of incidents

Decision-grade framing

1. Compare compliant design alternatives
2. Quantify cost, delay, residual risk and opportunity
3. Embed controls in the operating model
4. Define leading indicators and escalation triggers

Sources: Pitt Law: Compliance legislation | LeapXpert: Compliance guide

GOVERNANCE RECORD

A board-ready decision memo

1 **Decision**

What approval or direction is needed, by when

2 **Requirement**

The duty, applicability analysis and effective date

3 **Options**

Feasible choices with cost, risk and operational effects

4 **Recommendation**

Selected path, residual risk, owner and milestones

AUDIT TRAIL

Evidence that a decision was reasonable

1

Inputs

Current law, regulator guidance, data and expert advice

2

Challenge

Questions asked, assumptions tested and conflicts disclosed

3

Approval

Minutes, authority, rationale and conditions

4

Follow-through

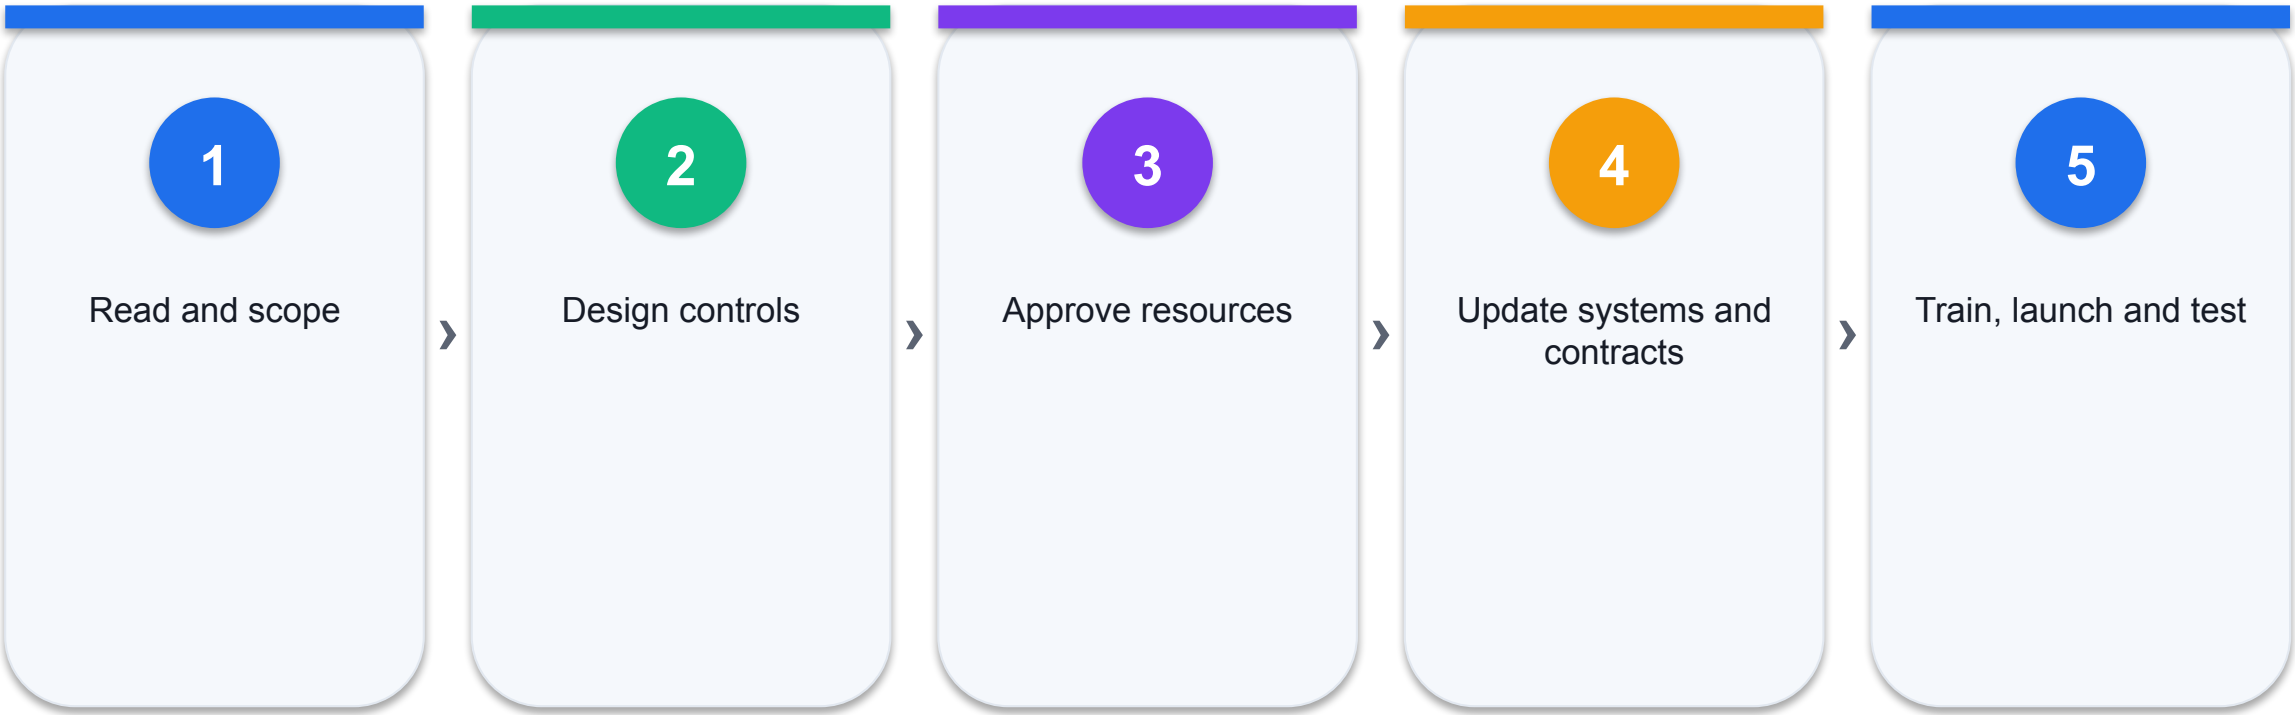

Owner, deadline, resources, verification and exception closure

QUESTIONS + SUCCESS CHECK | NO CLICK-BY-CLICK STEPS

Debrief | Activity 5: Regulatory Change Impact Assessment

DISCUSS AND DECIDE

1. What changed and which companies are affected?
2. Where does the old process fail?
3. What options can management choose?
4. What evidence proves the new process operates?

SUCCESS LOOKS LIKE

- ✓ Applicability stated
- ✓ All impact lenses considered

ACTIVITY 6 | K2, A2 / LO2

Board Decision Memo: Digital Filing Controls

20 MINUTES

Frame a proportionate board decision that balances legal compliance, control quality, cost, implementation risk and operational benefit.

Scenario

Apply the course concepts to a realistic Singapore business situation.

Deliverable

One-page board decision memo.

Evidence

Use regulator guidance, state assumptions and show owners, deadlines and proof.

ACTIVITY 6

Case Scenario | Board Decision Memo: Digital Filing Controls

THE SITUATION

The finance director proposes #SFFS-enabled accounting and payroll software. Operations prefers spreadsheets because the software subscription costs more, while the board is concerned about authorisation, data quality and reliance on one vendor.

YOUR ROLE

Act as the business owner or compliance lead. Separate facts from assumptions, identify the legal trigger, then make a defensible recommendation.

QUESTIONS + SUCCESS CHECK | NO CLICK-BY-CLICK STEPS

Debrief | Activity 6: Board Decision Memo: Digital Filing Controls

DISCUSS AND DECIDE

1. What decision is required and by when?
2. What are the viable compliant options?
3. Which risks remain after the recommended option?
4. Which conditions should the board attach to approval?

SUCCESS LOOKS LIKE

- ✓ Decision explicit
- ✓ Options compared fairly
- ✓ Business facts drive recommendation
- ✓ Conditions and verification are specific

Map stakeholders by impact and influence

1

High impact / high influence

Co-design the response and resolve trade-offs

2

High impact / low influence

Listen, equip and provide escalation routes

3

Low impact / high influence

Keep informed with decision-grade evidence

4

Low impact / low influence

Use concise updates and monitor for change

COMMUNICATION

Translate legal text into four business questions

1

What changed?

A plain-language summary without unnecessary legal jargon

2

Why us?

The business facts that make the requirement applicable

3

What must change?

Specific behaviours, systems, approvals and evidence

4

What happens next?

Owner, date, support, exception path and verification

INFLUENCE

Compliance as friction or enablement

Constraint narrative

1. A new legal burden
2. More forms and approvals
3. Compliance owns the problem
4. Launch is delayed until legal is satisfied

Value narrative

1. Protects licences, market access and customer trust
2. Reduces rework through built-in controls
3. Business owns risk with expert support
4. Compliant design accelerates repeatable growth

ROLE CLARITY

RACI prevents accountability gaps

1 **Responsible**

Performs the control or implementation task

2 **Accountable**

Owns the outcome and approves exceptions

3 **Consulted**

Provides specialist or affected-function input

4 **Informed**

Receives status, decisions and escalation outcomes

CAPABILITY

Role-based compliance learning

1. Identify decisions and behaviours
2. Segment roles by exposure
3. Use realistic scenarios
4. Practise and assess
5. Refresh after change or control failure

SPEAK-UP CULTURE

Make it safe to surface problems

1

Channels

Accessible reporting and advice routes

2

Protection

No retaliation for good-faith concerns

3

Response

Triage, investigate and communicate outcomes

4

Learning

Use root causes to improve controls and training

OVERSIGHT

Board reporting that drives action

1

Exposure

New obligations, major changes and high-risk business activity

2

Control health

Design gaps, operating failures and overdue actions

3

Incidents

Root cause, harm, notification and remediation

4

Decisions

Residual risks or resources requiring board direction

MEASUREMENT

Leading and lagging indicators

Leading indicators

1. Obligations without owners
2. Upcoming deadlines and overdue training
3. Control-test failures and unresolved exceptions
4. Third parties without current due diligence

Lagging indicators

1. Late filings and penalties
2. Notifiable incidents and complaints
3. Regulator findings or licence conditions
4. Loss, rework, customer churn and reputational damage

IMPLEMENTATION

A 30-60-90 day adaptation plan

1. 0-30: scope and stabilise
2. 31-60: redesign and pilot
3. 61-90: deploy and train
4. Test control operation
5. Report residual risk and improve

A3

People support change when the requirement is clear, the design is workable, and leaders model it.

Influence combines evidence, empathy, role clarity and visible follow-through.

ACTIVITY 7 | K2, A3 / LO2

Influence Plan for Privacy-by-Design

25 MINUTES

Build a stakeholder-specific influence plan that positions compliance as a workable design constraint and business enabler.

Scenario

Apply the course concepts to a realistic Singapore business situation.

Deliverable

Stakeholder map, influence messages and RACI.

Evidence

Use regulator guidance, state assumptions and show owners, deadlines and proof.

Sources: PDPC: Breach notification | LeapXpert: Compliance guide | Pitt Law: Compliance legislation

ACTIVITY 7

Case Scenario | Influence Plan for Privacy-by-Design

THE SITUATION

NexPort's Sales and Product teams resist new customer-data controls. Sales fears slower onboarding; Product fears delayed releases; Security wants strict approval gates; the DPO needs comparable overseas protection for support access.

YOUR ROLE

Act as the business owner or compliance lead. Separate facts from assumptions, identify the legal trigger, then make a defensible recommendation.

QUESTIONS + SUCCESS CHECK | NO CLICK-BY-CLICK STEPS

Debrief | Activity 7: Privacy-by-Design

DISCUSS AND DECIDE

1. What does each stakeholder value and fear?
2. Which behaviours must change in each function?
3. What evidence will show the design works?
4. Which disagreement requires executive resolution?

SUCCESS LOOKS LIKE

- ✓ Messages are role-specific
- ✓ Compliance/business trade-off addressed
- ✓ RACI has one accountable owner
- ✓ Pilot and escalation defined

ACTIVITY 8 | K2, A3 / LO2

90-Day Compliance Operating Model

20 MINUTES

Design a practical 30-60-90 day operating model covering ownership, calendar, controls, training, reporting, speak-up channels and assurance.

Scenario

Apply the course concepts to a realistic Singapore business situation.

Deliverable

30-60-90 day roadmap and monthly compliance dashboard outline.

Evidence

Use regulator guidance, state assumptions and show owners, deadlines and proof.

ACTIVITY 8

Case Scenario | 90-Day Compliance Operating Model

THE SITUATION

NovaCare Pte Ltd is growing from 20 to 80 employees and launching a digital service for healthcare clinics. Compliance tasks sit with different founders, deadlines are tracked in personal calendars, and employees do not know where to report concerns.

YOUR ROLE

Act as the business owner or compliance lead. Separate facts from assumptions, identify the legal trigger, then make a defensible recommendation.

QUESTIONS + SUCCESS CHECK | NO CLICK-BY-CLICK STEPS

Debrief | Activity 8: 90-Day Operating Model

DISCUSS AND DECIDE

1. What must be stabilised in the first 30 days?
2. Which controls should be piloted before full deployment?
3. What should management and the board see each month?
4. How will the organisation know the programme is effective?

SUCCESS LOOKS LIKE

- ✓ Priorities risk-based
- ✓ Owners and cadence clear
- ✓ Training and speak-up included
- ✓ Metrics test effectiveness, not activity alone
